A brief update on dissemination activities

4 tasks → 3 led by INFOTECH, 1 by UNIFG

Dissemination and Exploitation Strategy and Plan (M2)

- *Dissemination responsables*
- *Associated partners (in progress)*

SAFETY Web portal & Social media (M3)

- *Website*
- *FB, Twitter, LinkedIn*
- *Youtube*

SAFETY PR materials (M3)

- *Visual identity*
- *Project leaflets*
- *Tri-monthly newsletters (in progress)*

Building and maintaining dialogue with stakeholders

- *Intermediate Dissemination Report*
- *Final International Conference*

SAFETY - Associated Partners meeting

NAME OF THE ASSOCIATED PARTNER ORGANISATIONS	COUNTRY	TYPE OF ORGANISATION
Area Nuova	Italy	Network of students
Emergency Advanced Simulation Center - USL Pescara	Italy	Simulation Center
INTECH	Italy	Company specialized on innovative tools for the medical field
German Simulation Society (DGSim)	Germany	Association of academics and professionals
Society for Simulation in Europe (SESAM)	EU Network	EU Network
German Simulation Society (DGSim)	Germany	Association of academics and professionals
Society for Simulation in Europe (SESAM)	EU Network	EU Network
Arbeitsgemeinschaft Notfallmedizin München - students' association for emergency medicine in Munich (AGN)	Germany	Network of Students

SAFETY - Associated Partners meeting

NAME OF THE ASSOCIATED PARTNER ORGANISATIONS	COUNTRY	TYPE OF ORGANISATION
Laerdal Norway (LAE Norway)	Norway	SME
Doctorpreneurs	Global Network	Global network of medical doctors dealing with medical entrepreneurship
Society for Simulation in Healthcare	Washington (USA)	American association of medical doctors
Segretariato Italiano Studenti Medicina	Italy	Association of medical students
Laerdal Medical Spain	Spain	SME
Hospital Hispania	Spain	SME
Universitat Central de Catalunya, UVIC-UCC Campus Umanresa	Spain	University of Health Sciences and Simulation Center

SAFETY - Associated Partners meeting

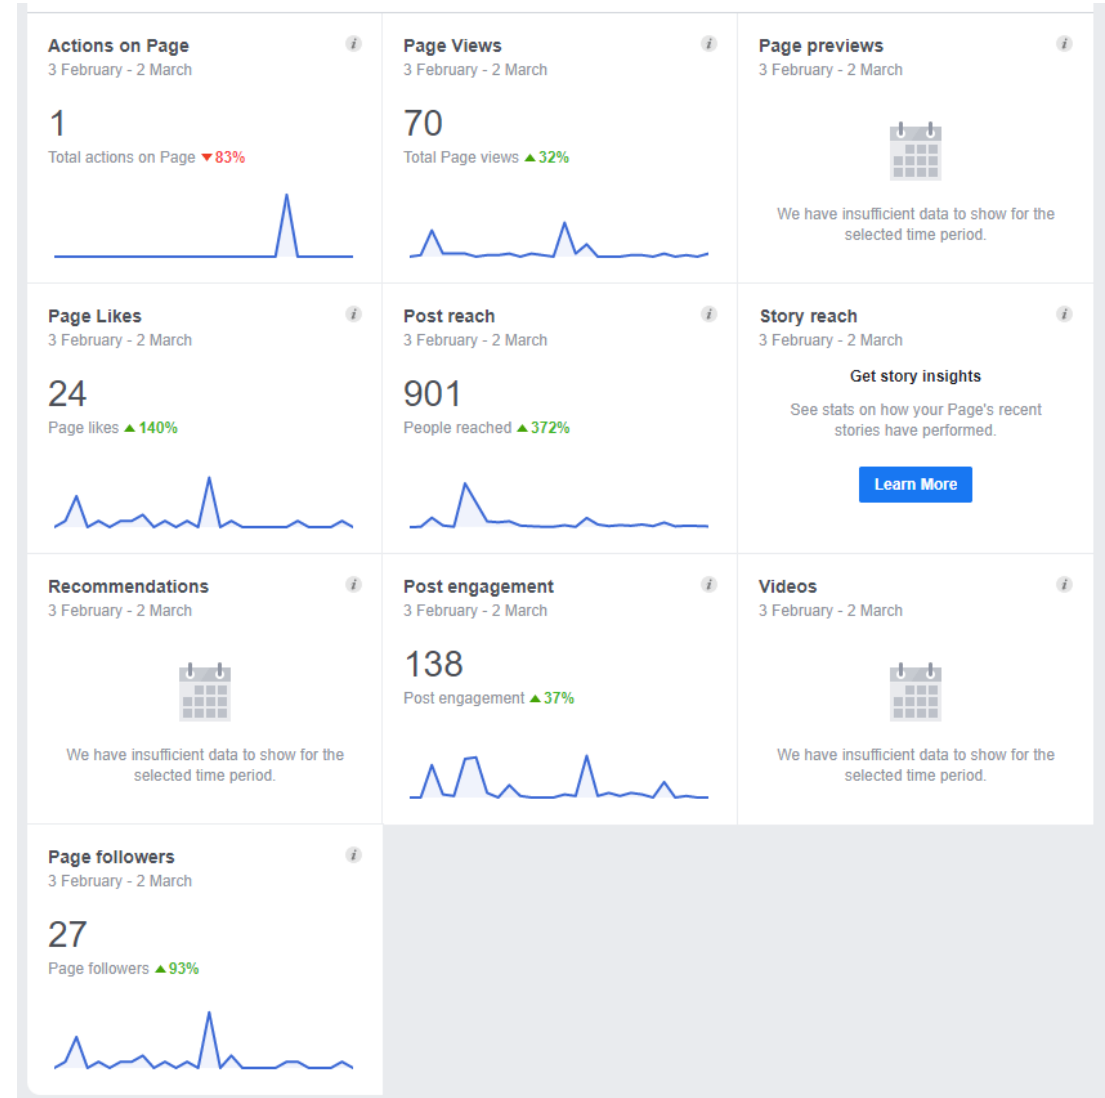

- The Associated Partners have been officially invited.
- The participation of at least one representative from each partner or their dissemination manager is recommended.
- The agenda of the meeting is being prepared.
- The date of the meeting will be announced shortly.

Articles/News - deadlines' calendar

PARTNERS	DEADLINES			
	<i>Jan 2021 - Mar 2021</i>	<i>April 2021 - June 2021</i>	<i>June 2021 - Aug 2021</i>	<i>Sept 2021 - Nov 2021</i>
UNIFG	28/01/2021	08/04/2021	17/06/2021	09/09/2021
TTW	04/02/2021	15/04/2021	24/06/2021	16/09/2021
HUBc	11/02/2021	22/04/2021	01/07/2021	23/09/2021
UiS	18/02/2021	29/04/2021	08/07/2021	30/09/2021
LMU	25/02/2021	06/05/2021	15/07/2021	07/10/2021

First results of our dissemination activities

- Great page views... in just over a month!!
- The followers of our FB page are growing ... we are at 148 likes.
- Our posts reached 900 Facebook users.
- 138 users have clicked on our published articles!

SAFETY Project - official brochure

Simulation Approach For Education and Training in emergencY (SAFETY) is a three years EU Erasmus+ project (Key Action 2) aiming at assessing the **gap between theoretical and practical knowledge in Emergency Medicine & Simulation sector**. The project goal is to cooperate in the exchange of knowledge and good practices to realize a course of study in the fields of Emergency medicine and intensive care.

SAFETY project aims to **renew the existing training offer and to overcome training gaps**, making practitioners safer and **ready to operate** in real emergency conditions or collaborate with companies involved in the development of medical simulation tools.

General objectives

- Build-up the **Body of Knowledge** of Higher Education in Emergency Medicine & Simulation (EM&S) for Clinical education and training and Simulation device;
- Design a **New Model and Best Practices** on Higher Education in EM&S;
- Disseminate Project findings to replicate **Best Practices and innovate EM&S Master Programs throughout Europe**.

Project Milestones

- Knowledge Needs and Gap Analyses** of Higher Education in EM&S
- Body of Knowledge (BoK)** in EM&S
- Courses and e-learning Modules** renewed upon the BoK Guidelines
- Best Practices** for renewing EM&S Master Programs

Target Groups

SAFETY will indeed focus on the needs analysis of different target groups, together with the adoption of advanced medical simulation techniques, using both high-fidelity manikins and virtual simulation techniques, to structure new courses and strengthen skills and modernization of European higher education systems. SAFETY will involve:

- Students & Alumni** in Emergency medicine & Simulation sector
- Academic community**
- European companies** engaged in the medical simulation sector

Knowledge Alliances for higher education.

Nowadays, more and more new doctors are hired by companies developing **simulation tools**, both for training and development of devices.

To this light, the project will also contribute to achieve the objectives of the Knowledge Alliance by standardizing the curricula in order to **widen the scope of job and entrepreneurial opportunities in the field of Medical device for training and simulation**.

Cooperation for innovation and the exchange of good practices.

SAFETY is a training initiative of **10 partners from 7 European countries** (AT, DE, ES, IT, NO, PT, RO) that allows cooperating in the exchange of knowledge and good practices to realize a course of study in Emergency Medicine (EM) and intensive care.

Involving **private companies** and sectorial networks of **Associate Partners**, SAFETY will definitively propose a **new curriculum fitting into a broader spectrum of job opportunities**.

SAFETY Project - official brochure

Project Partners

The project is coordinated by the Department of Medical and Surgical Sciences, University of Foggia (Italy)
